Board of Governors

The regular monthly meeting of the Board of Governors was held on Friday, 1 June. The following matters were among those discussed during the non-confidential portion of the meeting.

University Professorships

In November 1976, the Board requested General Faculties Council to reconsider the policies and procedures governing the appointment of University Professors. Following detailed examination of these prestigious appointments (there have been only five such appointments to date), GFC agreed at its 30 April 1979 meeting on a new set of regulations governing the award of University Professor status. On the recommendation of its Academic Concerns Committee, the Board gave approval to the new regulations.

Essentially, the title "University Professor" will no longer be restricted to those persons whose work is of an interdisciplinary nature. Rather, its award will be based solely on achievement in teaching, scholarly work, community activity on behalf of the University, and in other service of benefit to the University. The title shall be honorific only and will not lead to extra remuneration for the recipient or extra funds for the Faculty or Department in which he works.

Recommendations, according to the criteria mentioned above, may be proposed by any member of the academic staff to the appropriate Dean. The Dean, in turn, will strike a committee to consider the nomination. In light of the committee's recommendation, the Dean will then decide whether or not to submit the

nomination to Deans' Council. Deans' Council will recommend to the President.

The number of University Professors will be limited to approximately one percent of the academic staff, about fifteen to twenty individuals.

Agriculture Enrolment Quota

The Governors approved a recommendation of the Academic Concerns Committee that enrolment quotas for second year studies in the Faculty of Agriculture and Forestry be established as follows:

General Agriculture	120
Food Science	20
Forestry	60
Pre-Veterinary Medicine	40
Total	240

Appointments

William J. Kurmey has been

appointed Dean of The University of Alberta's Faculty of Library Science with a term of office effective from 1 January 1980 and continuing to 30 June 1984.

Currently Associate Professor in the Faculty of Library Science at the University of Toronto, Professor Kurmey gained a BSc in Chemistry and Mathematics in 1961 at the University of British Columbia, in his native province, before taking an AM in Library Science at the University of Chicago in 1964. Since that date, Professor Kurmey has held a variety of positions at the Universities of Chicago and Toronto and has acted as library consultant to a number of universities, and public and private institutions. Professor Kurmey has published widely and brings to his new post much experience in library systems design and computer-based

Double Honors for Mathematics Student

A fourth year mathematics student received two honors last week on the third day of the convocation ceremonies.

Malcolm Kern received not only his Bachelor of Science honors degree but the highest science award given by the University, as well.

The Lieutenant Governor's Gold Medal is awarded annually to an honors science student within the Faculty of Science for outstanding academic achievement. Mr. Kern comes by this distinguished medal with an almost perfect academic record during his four years in the Department of Mathematics.

The 22 year old native of Taber, Alberta, is thinking of pursuing a career in the actuary field. He is currently employed by an Edmonton actuary company and plans to study mathematics at the graduate level on a part-time basis in the fall while continuing his work with the firm.

Mr. Kern was presented the gold medal by the Dean of the Faculty of Science, Dr. K.B. Newbound, in a special ceremony immediately following convocation exercises on Wednesday, 30 May. □

Roger L. Ellis has been appointed to the Chair of Dental Health Care in the Faculty of Dentistry for a five-year term beginning on 1 July 1979.

Dr. Ellis was born in Almonte, Ontario (near Ottawa) in 1932. At present he holds a cross appointment at the University of Toronto as Associate Professor in the Department of Community

Dentistry and the Division of Community Health. Educated at the Renfrew Collegiate Institute from 1946 to 1951, Dr. Ellis gained his DDS at the University of Toronto in 1956, and, at the same institution in 1968 and 1970, a DDPH and MSc respectively. Having spent over a decade in private practise in Preston, Ontario, Dr. Ellis has been employed at the University of Toronto since 1968.

Jacobus P. Verschuren has been appointed to the Chair of Civil Engineering. Born in Holland in 1930, Dr. Verschuren received his baccalaureate training at Delft University, his MSc from The University of Alberta, and his PhD at Colorado State. He was first appointed to the academic staff as a Sessional Lecturer in 1954 and was made Professor in 1970. The term of office begins on 1 July 1979 and expires on 30 June 1980.

Financial Matters

Among the recommendations presented for Board consideration on Friday, 1 June, were several emanating from the Board's Finance Committee. Of particular interest to graduate students was a recommendation that The University of Alberta Graduate Scholarship be increased from its current level of \$6,000 per annum to \$7,000 per annum. The recommendation gained Board approval

General Faculties Council

The regular monthly meeting of GFC was held on Monday, 28 May. The following matters were among those discussed.

New Members

GFC received the names of R. Brundin, P. deHaas, A.S.A.

and is to take effect on 1 September 1979.

Also, the Finance Committee recommended that the Governors approve a grant of \$5,690 or one half of total expenditures, whichever is the lesser amount, to assist the program of Freshman Orientation Seminars. The Board approved the recommendation which will allow the effective maintenance of one of the University's most important programs for new undergraduate and graduate students alike.

The Freshman Orientation Seminars were initiated in 1966 and, in their first year, reached only about two percent of our new students. Last fall, however, about sixty percent of "freshmen" made use of the services provided, for the most part, by volunteer students and staff. The costs incurred, which the grant will in some part defray, are primarily from room and board at Lister Hall, program development, and administration. The Students' Union will absorb the costs not covered by the grant.

Building Committee

The Board considered and approved several recommendations proposed by the Building Committee, which met in open session on 24 May.

Constructions costs in the order of \$266,000 were approved for a pedestrian link between the new south entrance to HUB and the Fine Arts Building; the Edmonton Research Station's Large Animal Metabolic Unit will be completed at a cost of approximately \$202,000; and J.M. Mulligan of J.M. Mulligan and Associates Limited is appointed Prime Consultant for a new Meats Laboratory at the Edmonton Research Station. □

Mohsen, and R.G. Glassford as elected members of Council. With the exception of Dr. Glassford, each will serve a term of office to expire on 30 June 1982. Dr. Glassford's term extends to 30 June 1980.

Dr. Brundin is Associate Professor of Library Science; Mrs. deHaas is a Professional Librarian; Dr. Mohsen is Associate Professor of Sociology; and Dr. Glassford is Professor of Physical Education.

P. Pierzchalski (Law-3) and D. Wood (Dentistry-2), both undergraduate students, were appointed to Council, with terms of office to expire at the end of March 1980.

University Priorities

Council considered and approved the following resolution from the Board of Governors with respect to Recommendation 9 of the University Priorities Committee Report:

"That an acceptable enunciated policy of position control be applied to the filling of vacancies which occur among permanent academic and non-academic positions, and the establishment of any new permanent positions. The policy should be administered by the appropriate Vice-President with respect to those Departments reporting to him in accordance with procedures approved by the University Planning Committee and in consultation with the other Vice-Presidents."

Funding For International Students

Four recommendations which emanated from the Council on Student Services were approved by GFC following some amendments. The recommendations were also referred to UPC for detailed consideration.

The revised recommendations are as follows:

1. That the amount presently allocated by the Board of Governors for the Golden Key Emergency Fund be increased.
2. That favorable consideration be given with respect to the setting up of a bursary fund, the amount

to be determined by UPC and the Board of Governors and that such a fund should relate to the net income of the University from collection of the differential fee.

3. That in keeping with the Senate's Report on Foreign Students, the Board of Governors request Senate's assistance in establishing a program that would provide hospitality and/or help to International Students—the purpose being to increase interaction and involvement of the community with International Students.

4. That the University recognize superior academic achievement of undergraduate visa students who have been able to maintain a grade point average of 7.5 or better over five full or ten half courses during the previous twelve month period. This recognition should take the form of an award, such form as may be determined by the Board of Governors in consultation with UPC. And that this policy be advertised by memorandum to all visa students, and by notation in the University Calendar when the next issue goes to press.

Academic Schedule Change

Regarding a proposed change of date for second term deferred finals, Council gave approval to the writing of second term or full year deferred final examinations following the same practice that is used for writing deferred finals in the first term, (that is, that such deferred finals be held after the end of the second term, at a time agreed upon between the student and the instructor, rather than at the time of the regular supplementals in August).

The change of date was proposed by R.F. Anderson, Chairman of the Department of English. He noted that "under the present rules a student writing a deferred first term final examination enjoys an advantage denied to one writing a deferred second or full-year final examination; in general, the closer to the end of the course a student writes a deferred examination, the better his/her results are likely to be." □

Tuition Fees

The Council of Ontario Universities has submitted a policy statement on tuition fees to the provincial Minister of Education Bette Stephenson. In the statement, the COU supports the use of formula fees as part of the Ontario Basic Income Unit but suggests that there should be a greater variety in formula fees from program to program. The COU brief also states that student support of the Ontario universities should not exceed twenty percent of the operating income.

TRIUMF

Neutron activation analysis will soon be a tool available to mining companies, courtesy of the Tri-Universities Meson Facility in British Columbia, a cooperative research facility in which The University of Alberta takes part. The British Columbia government and the National Research Council will fund a commercial analysis facility to be operated by two Vancouver materials analysis firms.

Canadian Historical Atlas

University of Toronto Professor William G. Dean will direct a group of scholars working in universities in British Columbia, Manitoba, Ontario, and Quebec in the compilation of an Historical Atlas of Canada. The project, which will span three volumes and six years of research, will make use of the expertise of professors and graduate students in a wide array of social science disciplines. The research and production cost of the Atlas will be met by a \$3.5 million grant disbursed by the Social Sciences and Humanities Research Council of Canada.

75th Anniversary Celebrations

From July 1982 to June 1983, The University of Alberta will hold its 75th academic session. This is a Jubilee which will be celebrated throughout the year by a variety of special events and projects. The organizers of the celebrations, therefore, require your participation in planning projects or events which will portray all aspects of the life of this University past and present in a wide range of academic, cultural and artistic, and sporting endeavors.

All your ideas and suggestions are welcome and will receive full consideration, subject to the availability of funds. In fact, the success of the celebrations is dependent on you.

Please submit your ideas for the celebrations to:

Fumehood Survey

In order to update existing information and acquire additional pertinent information on the various fumehood exhaust systems on campus, the Department of Physical Plant, in conjunction with the University Safety Officer, will conduct a survey of all campus fumehoods during June, July, and August.

The survey will require interviewing of research directors and fumehood users to determine normal use. As a result of the survey fumehoods will be classified according to the degree of hazard associated with the material used.

Positions Vacant

Assistant to the Dean of Students

The Department of Student Affairs invites applications for the vacant position of Assistant to the Dean of Students (for Kelsey Hall), a part-time academic position.

The Assistant to the Dean of Students resides in Kelsey Hall, a 500-student co-ed residence located within the Lister Complex of The University of Alberta.

The Assistant to the Dean represents the University Administration in the conduct of student affairs within the residence by serving as an adviser to the student government and seeing to the general welfare of students residing in that hall.

The Assistant to the Dean reports to the Dean of Students, and is responsible for discipline and the improvement of residence life within that hall.

The ideal candidate is the university graduate returning to The University of Alberta for an advanced degree after working in a related field. The applicant should have some experience in student affairs, counselling, or some aspect of university administration.

Further information can be obtained by telephoning 433-4719 or 432-2968 during office hours. **Starting date:** 1 August 1979. **Resumé and curriculum vitae** should be sent to:
051 Mackenzie Hall,
Lister Complex,
The University of Alberta,
Edmonton,
